Pilot 2026

Pilot prices

You leave with a business that already runs. Not a pile of notes.

Working software

Your own business suite: dashboard, AI team, offer page, content and money view by level. Set up, running and automated.

~~not a pile of skills~~

Hands-on, with us

You set it up yourself, step by step, on your own accounts. Your AI follows the room and does each step with you.

~~not videos to watch alone~~

Yours to extend

Ask your AI for a new page, email or routine, check it, and it's live. It keeps growing with your business.

~~not notes in a folder~~
